Coverage Examples for SUBlue and SUOrange

Details on Deductibles and Copays:

These examples show how SUBlue and SUOrange may cover **in-network** medical care. Use these examples to see, in general, how the deductible and copay are applied to certain services **when the deductible is satisfied on the first visit**.

How does the deductible affect what I pay at my provider's office? A deductible is a dollar amount members pay toward covered medical care each year, before the health plan begins to pay. After the annual deductible is satisfied, you will pay the copay or coinsurance that apply to those services.

An annual in-network deductible of \$150 per person with a maximum of \$300 for a family will be applied to the SUBlue and SUOrange health plans. Each family member is only subject to the annual individual deductible. Any combination of family members can satisfy the annual family deductible.

How does the out-of-pocket maximum protect me and my family? The out-of-pocket maximum caps the amount of out-of-pocket expenses that you would pay in a calendar year.

Expenses that count toward the out-of-pocket maximum include the deductible, coinsurance, and copayment amounts. A separate out-of-pocket maximum applies to prescription drugs.

Once you reach the out-of-pocket maximum, the health plan pays 100% of eligible charges for the remainder of the year. The difference between submitted charges and the allowable amounts for
